

Problem statement

Build a data model to predict retention of an employee within an organization (whether the employee will leave the company or continue with it).

Please find dataset in the below link

https://drive.google.com/file/d/1q15_n1-n8W4CCvaGinQUXZ1xeTrpBntj/view?usp=sharing

Note:

1. Please make necessary assumptions and mention them
2. Document the code
3. Validate the output with the test data
4. Submit the code, model and output
